Dear FinTreeite,

Welcome to the FinTree Community!

We are excited to have you with us.

This Information Catalog is here to help you understand how the FinTree CFA Prep Program works. Here is an outline of what we will cover here:

→ What are FinTree Live Classroom Sessions like?
→ What about the Weekly Tests? Are they compulsory?
→ What are Video Tutorials?
→ What is JuiceNotes? Are they served?
→ What are FinTreeConnect™ Sessions?
→ How does the FinTree Placement Program work?
→ What is our schedule for the batch?

Description

Live Classroom Session – Experience

A typical session is broken down in three parts. Warm Ups, Main Session and Jamming! What is jamming session? Well, attend it to experience it!

The classroom is always lively with candidates having different exposures – students with different academic backgrounds, interns and full-time working professionals. The classroom comes alive by sharing the real-time financial market updates, interesting stories from the finance world, Interesting examples and personal experiences of the faculty.

With us, you will never study just for the exam! You will always get much more! Every year students travel from all over India, Middle East and South Asia to participate in our awesome classroom training program. FinTree's classroom training is one of the best in the world and our students can vouch for this.

Weekly Tests

A customized test on the topics covered in class. Chapter-wise cumulative tests are conducted regularly over systematic span of intervals. As the old saying goes, "Practice makes a man perfect", knowledge is of no value if you don't put it into practice.

Video Tutorials

Missed a lecture? Sitting in the class after a few days and worried that you will not understand a word? Stop right there! There is absolutely no need to worry. Our classroom students get access to the online video tutorials – so they will never miss out on any topic discussed. These videos were live recorded, and we make sure that you will not lose out on any topic.

JuiceNotes™

JuiceNotes comes from years of experience. Our team has created the JuiceNotes to help you prepare optimally for your exam. These notes will provide you the gist of the entire syllabus which are organized in a LOS-wise fashion. These are all you need for a wholesome revision and we ensure that nothing is missed.

If you have purchased a course package with JuiceNotes as one of the components, you will be able to access a soft copy through our Learning Management System (LMS). A print version of the JuiceNotes is available for purchase on Amazon.

FinTreeConnect™ Sessions

A unique initiative by FinTree for the students to connect with eminent people from the finance vertical, faculties and our students from all over the globe.

Placement Services

Our strength is in our students! Over the last few years, we have maintained and built a strong industry network, by connecting with our alumni and current program participants. Our Placement Team purely leverages these contacts to generate opportunities for classroom participants. Over the years we have done some placements, which are at par with some of the best B-schools in India. All FinTree classroom program participants have lifetime access to FinTree Placement services and with the lap of time, our students, placed at reputed establishments help us back with placements. Our students have been placed at firms such as Ernst & Young, Infosys, BNY Mellon, Standard Chartered, Credit Suisse, etc.
